Sunco Frame Mounted Floating Saber Tooth Row Cleaners

*Floating arms
maintain
optimal cleaning
at any height*

*Polymer Depth Bands
create floatation
in soft soil conditions
and minimize soil
buildup in wet
conditions*

- **Frame Mounted design eliminates stress on planter row units for smoother row unite ride**
- **All the same field proven advantages of the original Sunco Saber Tooth: Disc Concavity, Exclusive Tooth Design, and Disc Separation**
- **Removes residue from the seedbed that can cause seed germination and emergence problems or disease and damage to young seedlings**
- **Floating parallel arms allow the Floating Saber Tooth to follow the contours of the field consistently clearing residue**
- **Can be used in conjunction with the  Precision Planting® CleanSweep® system (not included) which allows for quick and effortless in cab adjustment of row cleaner down pressure**

Spring down pressure

➤ **Optional Spring Down Pressure Kit provides downforce when not using the CleanSweep® system**

➤ **Sunco's original swept back tooth design eliminates hair pinning of residue, moves and releases trash as the discs rotate - preventing wrapping**

3 Position Adjustable Downstop

➤ **Offset disc design prevents competition for trash that leads to plugging plus it also allows for disc overlapping to ensure residue is removed from entire seedbed**

Heavy Duty Cast Hub with Double Race 12 Seal Bearing

Specifications

- Discs - Concave 13" with swept back teeth
- Hub - Heavy Duty Cast, 6 bolt
- Bearings - 2 High Quality Triple Seal
- Adjustment - Floating with 5 position Cam down-stop
- Materials:
 - Mount - High Quality Grade 50 Steel
 - Depth Band Material - High Wear Glass Filled Nylon Polymer
- Weight:
 - Floating Mount Bracket - 27 lbs.
 - Floating Bracket with discs - 51 lbs.
 - Distance From Faceplate: 21.5"
