Sunco Floating Saber Tooth Trash Discs

Floating arms maintain optimal cleaning at any height

Polymer Depth Bands create flotation in soft soil conditions and minimize soil buildup in wet conditions

Adjustable cam allows you to adjust to different soil conditions or farming practice

- **All the same field proven advantages of the original Sunco Saber Tooth: Disc Concavity, Exclusive Tooth Design, and Disc Separation**
- **Removes residue from the seedbed that can cause seed germination and emergence problems or disease and damage to young seedlings**
- **Floating arms allow the Floating Saber Tooth to follow the contours of the field consistently clearing residue**
- **Can easily be paired with the Sunco NutriMate 3 as a part of the NutriFloater System for Precision 2x2 Fertilizer Application**
- **Can be used in conjunction with the  Precision Planting® CleanSweep® system (not included) which allows for quick and effortless in cab adjustment of row cleaner down pressure**

Sunco Floating Saber Tooth Row Cleaners feature an easily adjustable 9 sided cam for consistent row cleaner depth adjustment

➤ **Concave disc design rolls residue from the seedbed even with no downforce increasing bearing life**

➤ **Sunco's original swept back tooth design eliminates hair pinning of residue, moves and releases trash as the discs rotate - preventing wrapping**

Can easily be upgraded to the Sunco NutriFloater system for 2x2 Fertilizer Application

➤ **Offset disc design prevents competition for trash that leads to plugging plus it also allows for disc overlapping to ensure residue is removed from entire seedbed**

➤ **Can be used with or without the Precision Planting cleansweep system. All cylinder mounting included in base price**

**Heavy Duty
Cast Hubs
With 2 Triple
Seal
Bearings**

Specifications

Discs - Concave 13" with swept back teeth
Hub - Heavy Duty Cast, 6 bolt
Bearings - 2 High Quality Triple Seal
Adjustment - Floating with Cam Stop in 1/2" Increments
Materials:
Mount - High Quality Grade 50 Steel
Depth Band Material - High Wear Glass Filled Nylon Polymer
Weight:
Disc & Arm Assembly - 46 lbs.
Mount Bracket - 11 lbs.
Distance From Faceplate: 25.5"
